### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jeffrey C. Hood (Reg. No. 35,198) on November 1, 2004.

2. The application has been amended as follows:

Claim 20. (Currently Amended) A system comprising:

    a computer including a CPU and memory;  
    a shared library comprising a graphical program and stored in the memory of the computer, wherein the shared library includes an entry point function associated with the graphical program, wherein the graphical program comprises a plurality of connected nodes which visually indicate functionality of the graphical program;

    wherein at least one input and at least one output of the graphical program map to respective entry point function parameters in accordance with a specified functional interface specific to the graphical program;

    wherein, in response to a program calling the entry point function, the entry point function is operable to directly invoke the graphical program, wherein said calling the entry point function comprises providing values for the respective input parameters in accordance with said mapping.

Art Unit: 2126
